The Agilent 1200 Series manual injector uses a Rheodyne 7725i 7-port sample injection valve. Sample is loaded into the external 20- μ l sample loop through the injection port at the front of the valve. The valve has a ceramic stator and Vespel™ injection seal (for pH above 10, a Tefzel™ seal is available).

Agilent 1200 Series Manual Injector User Manual

The Agilent 1200 Series RRLC Method Development Solution facilitates complete automation of this time consuming selection process – making method development and method transfer an easy and reliable task. ZORBAX 1.8 μ m RRHT columns use the same chemistry as ZORBAX columns with 3.5 and 5 μ m particles.

Agilent 1200 Series Rapid Resolution LC and Rapid ...

Agilent 1200 HPLC The Agilent 1200 Series binary LC gradient system is your first choice when your requirements demand the maximum in gradient and low flow rate accuracy and precision. It is the ideal system for all high-throughput and fast applications.
