Shooting Settings for a Canon EOS Rebel T3 Series Camera ...

When adjusting the camera settings it is quite obvious how to change ISO and shutter speed, but changing the f-stop / aperture isn't quite as obvious or intuitive. You'll need to be in Manual, P, or AV modes in order to adjust your aperture manually (you can change the mode on the top dial of the camera). Once you have it in the correct mode you'll simply need to press down on the AV button (which is next to the top right of the display screen and circled in the image below), and then ...
