Adjusting brake ducts in Assetto Corsa Competizione. If your tyres get too hot then they lose grip dramatically, creating wheelspin and excessive scrubbing. It's, therefore, best to ease off for a few corners until the temperatures are back under control.

Why tyre pressures are key to winning in Assetto Corsa ...

The brake distribution represents the amount of braking force that will be sent to the front wheels relative to the rear ones. Over 50% means that more brake pressure will be sent to the front wheels and vice versa, less brake pressure to the rear wheels. A shift in the brake force forward means that the car is more stable under braking.
