### Creation How Science Is Reinventing

Creationism is the religious belief that nature, and aspects such as the universe, Earth, life, and humans, originated with supernatural acts of divine creation. In its broadest sense, creationism includes a continuum of religious views, which vary in their acceptance or rejection of scientific explanations such as evolution that describe the origin and development of natural phenomena.

"Inventory" by Carmen Maria Machado, LitHub. This is dystopian science fiction at its finest. Bone-deep and altering. This is my favorite story in Machado's collection, Her Body and Other Parties. It is a soul-wrenching story, structured as a list of those the narrator has had sex with, while also telling the story of her fight for survival as an epidemic ravages the nation.
