>The Qing general, Ban Di [zh], entered the city on January 18, 1751,[4] as the first representative of the Emperor to arrive to Lhasa after the riot and he came with a personal escort from Kokonor, where he had been the Imperial representative. Upon entering, he immediately demanded the surrender of the insurgents.

M13 English B HI Paper1
Austronesian diffusion is considered one of the greatest dispersals in human history; it led to the peopling of an extremely vast region, ranging from Madagascar in the Indian Ocean to Easter Island in Remote Oceania. The Y-chromosome haplogroup O3a2b*-P164(xM134), a predominant paternal lineage of Austronesian populations, is found at high frequencies in Polynesian populations. However, the ...

Phylogeography of Y-chromosome haplogroup O3a2b2-N6 ...
Molecular anthropological studies of the populations in and around East Asia have resulted in the discovery that most of the Y-chromosome lineages of East Asians came from Southeast Asia. However, very few Southeast Asian populations had been investigated, and therefore, little was known about the purported migrations from Southeast Asia into East Asia and their roles in shaping the genetic ...
