Navistar Maxxforce 7 Engine Problems

Navistar International Corporation is an American holding company created in 1986 as the successor to International Harvester. Navistar operates as the owner of International brand of trucks and diesel engines. The company also produces buses under the IC Bus brand. On July 1, 2021, Navistar became a wholly owned subsidiary of Traton, and therefore part of the Volkswagen Group.

Navistar International - Wikipedia

Tim Shick, vice-president of sales support with Navistar, said most of the problems could be traced to the MaxxForce engine's turbo air control valve, which connects directly to the engine's electronic control module (ECM). The ECM, very importantly, would dictate via that connection how much fresh air should be supplied to the engine and ...
