The Black Death A Personal

The Black Death, AKA the bubonic and/or pneumonic plague, has been characterized as the greatest disaster in human history, killing 50% of the population throughout the Middle East and Europe. While factual chronicles abound, Cambridge historian John Hatcher has now endeavored to bring his readers a more immediate sense of what it must have been like to experience the cataclysm first hand.

The Black Death: A Personal History Themes | GradeSaver

The Black Death was a plague pandemic which devastated Europe from 1347 to 1352 CE, killing an estimated 25-30 million people. The disease, caused by a bacillus bacteria and carried by fleas on rodents, originated in central Asia and was taken from there to the Crimea by Mongol warriors and traders. The plague entered Europe via Italy, carried by rats on Genoese trading ships sailing from
