Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

## **The Tree A Natural History**

A blend of history, science, philosophy, and environmentalism, The Tree is an engaging and elegant look at the life of the tree and what modern research tells us about their future. There are redwoods in California that were ancient by the time Columbus first landed, and pines still alive that germinated around the time humans invented writing.

...

A long history revealed. The careful treatment process exposed the natural surface of the wood, enhancing its appearance by revealing the sequoia's growth rings. Tree rings are created under the bark as the organism grows taller and thicker. Experts can tell how old a tree is by its number of growth rings. This sequoia has a long history.
