Consumer service - Wikipedia

Consumer services are services that are primarily sold to individuals as opposed to organizations. This is a large sector of the global economy and a common business model. Services offer intangible value that has no physical form such as an experience, result or process. The following are common examples of consumer services.

18 Examples of Consumer Services - Simpllicable

Customer service is the provision of service to customers before, during, and after a purchase. The perception of success of such interactions is dependent on employees "who can adjust themselves to the personality of the guest". Customer service concerns the priority an organization assigns to customer service relative to components such as product innovation and pricing.
